[†] This column gives an example of how the fees and costs for the GoalTracker investment option, with an account balance of \$50,000, can affect your superannuation investment over a one year period.

^{**} If your account balance for a product offered by the superannuation entity is less than \$6,000 at the end of the entity's income year, certain fees and costs charged to you in relation to administration and investment are capped at 3% of the account balance. Any amount charged in excess of that cap must be refunded.

^{††} This includes the excess administration costs incurred by the Trustee and paid from the Fund reserve in the 2022/2023 financial year. Please refer to your PDS for further information.

[~] The asset based administration fee applies to the first \$1 million of your total account balance and will depend on the investment option you are invested in. This fee may be charged in two parts and show as separate transactions in your account. Please refer to the 'Additional explanation of fees and costs' section of your PDS for further information on how the cap applies.

⁺ Investment fees and costs includes an amount of 0.08% per year for performance fees. The calculation basis for this amount is set out under the "Additional explanation of fees and costs" section of the Investment Guide.

[‡] The Investment fee varies according to the option you invest in. The quoted fee here is for the GoalTracker investment option.

^{†††} Additional fees may apply. Please refer to your Insurance, Fees and Costs Guide and your Super Guide for more information.

[^] The Trustee passes on the tax deductions it receives so the estimated cost to you would be **\$484.35**.

Your automatic insurance cover

If you are a new member under 25 or your balance is less than \$6,000, your cover will not be provided automatically. When you reach both 25 years old and a balance of \$6,000, cover may automatically commence (eligibility requirements and limitations may apply). To opt in to insurance prior to this, please log on to your online account or complete and return the Insurance Opt in Form (available on our website or call us for a copy).

New events conditions will apply upon commencement of cover.

You should consider whether you hold cover elsewhere, either within another fund or outside superannuation, and the impact of holding multiple insurance covers.

Death, and Total and Permanent Disablement (Death & TPD) cover

If you opt in for Insurance cover on joining the Fund and your employer, you may be eligible to receive default Death & TPD cover. If you do not opt in for cover, your Death & TPD cover will automatically commence when your balance is more than \$6,000 and you are over the age of 25 years (eligibility requirements and limitations may apply). Default Death & TPD cover is calculated as:

$$15\% \times \text{Future service to age 65} \times \text{Salary}^{\wedge}$$

You can request, in writing, additional cover. The additional cover is a fixed dollar amount (i.e. fixed cover that does not reduce with age). There is no limit in the amount of Death cover you can apply for but a \$5 million limit applies to TPD cover. Any voluntary cover is subject to the same fees as your automatic cover. You can also request a change to your insurance cover at any time.

Automatic Income Protection cover

If you opt in for Insurance cover on joining the Plan and your employer, you may be eligible to receive Income Protection cover. If you do not opt in for cover, your cover will automatically commence when your balance is more than \$6,000 and you are over the age of 25 years (eligibility requirements and limitations may apply). Cover is available if you are a permanent employee between ages 16 and 64, work at least 15 hours every week, and satisfy the insurer's eligibility conditions.

Benefit	75% of Salary [^]
Benefit period	2 years, paid monthly in arrears [~]
Waiting Period	90 days

[^] Salary as defined by the insurer and the benefit is subject to a maximum payment per month. We will let you know if the maximum applies to you.

[~] Benefits may reduce by any amount of workers compensation and other payments which you are eligible to receive during your period of disability.

You can also apply to voluntarily increase your benefit period (5 years) and/or decrease your waiting period (30 days or 60 days). Voluntary cover is subject to insurer acceptance and different insurance fees apply.

Insurance fees

The Trustee passes through the benefit of the tax deduction it can claim for insurance premiums. Therefore, the net insurance fees (i.e. the fees deducted from your account) are shown here. Insurance fees depend on your age and gender. Insurance fees will reduce your account balance. Please refer to your Insurance, Fees and Costs Guide for full details of the insurance fees applicable to you.
